Cross Sectiona	al Shape:
Round	
Overall Length	:
72.000 inches	
Tempurature R	ating:
75.000 degrees	celsius
End Application	n:
Nsn 5895-01-38	4-6751.
Termination Ty	pe:
Connector interr	nal angle 1st end all conductors
Conductor Qua	antity:
4	
Accessory Wire	e Type And Quantity:
1 ground	
Strand Quantity	y Per Conductor:
19 all conductor	S
Conductor For	m:
Stranded all con	nductors
Strand Awg Siz	ze Per Conductor:
12 all conductor	s
Voltage Rating	:
600.0 ac rated	working voltage all conductors
Special Feature	28:
Flame and mois	ture retatdant; no mechanical protection
Material:	
Rubber chlorosu	Ifonated polyethylene class csm core primary insulation all conductors
Style Designate	or:
Internal angle co	onnector
Specification D	Data:
J-c-30b governn	nent specification and mil-i-23053/5 government standard and qq-w-343 government specification
Shelf Life:	
N/a	
Unit Of Measur	e:
Demilitarization	n:
No	
Fiig:	
A077a0
