Cross Sectional Shape:

Round

Conductor Quantity:

2

Conductor Form:

Solid, tubular all conductors

Product Name:

Cable assembly outline

Special Features:

length, 50 in porm 1 in; end one etnc male 90 degrees no-replaceable; end two etnc male non-replaceable; freq range, .80 to 2.0 ohz; maximum vswr. 1.50; color band green; wt max, .50 lbs

Style Designator:

Internal angle and internal straight connector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A077a0
