Rou	ess Sectional Shape:
	Application:
	ssq-12 (v) 2, tactical exploration system
	mination Type: g telephone 2nd end single conductor
	nductor Quantity:
1	iductor quantity.
-	and Quantity Bar Conductor
	and Quantity Per Conductor:
	ngle conductor nductor Form:
	anded single conductor duct Name:
	ole assembly, i/o panel und Conductor Size:
	awg single conductor
	and Awg Size Per Conductor:
	ecial Features:
	ed on coblu program
	terial:
	stic polyester 2nd position shield foil single conductor cious Material And Location:
	nnector gold cious Material:
Gol	
	a 2If Life:
N/a	
	t Of Measure:
	t of measure.
	nilitarization:
No
