Cross Sectional Shape:

Round

Electrical Resistance:

50.00 ohms impedance

End Application:

Av8b acft

Termination Type:

Connector internal straight 1st end single conductor

Conductor Quantity:

1

Strand Quantity Per Conductor:

19 single conductor

Conductor Form:

Stranded single conductor

Strand Awg Size Per Conductor:

33 single conductor

Special Features:

P1 connector, r142085000 (radiall); p2 connector, r142184000 (radiall); 72 inches o/a lgth

Material:

Copper core conductor single conductor

Precious Material And Location:

Center contact surface of connectors gold

Precious Material:

Gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A077a0
