Cross Sectional Shape:

Coil/cord

Conductor Quantity:

24

Product Name:

Cbc24 series ieee-488 cable

Special Features:

This premium series has one conventional male-female connector. The other end terminates to a straight male-only connector, a feature sometimes preferred when there is no need to have a female end exposed. This cable is most useful when the dual-right angle connectors get in the way of other system cables and particularly in a computer back plane.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
