End Application:

Syststbnch

Product Name:

Conformable interconnect cable assembly

Special Features:

Cable length: 20 inches. Copper tinned composite jacket for hand formability. Solid ptfе dielectric. Tight bending radius of .125 inches. Sma straight male antitorque and right angle male connectors. .086 inches, out diameter. Interconnect assembly for signal routing.

Material:

Tin core shield braid, metallic third conductor

Precious Material And Location:

Center conductor silver

Precious Material:

Silver

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A077a0
