Overall Length:

48.000 inches

End Application:

Alr-67, radar warning receiver

Conductor Quantity:

1

Product Name:

Cable assembly, interface device, electrical-rf

Special Features:

Drawing number: 2059as452; rated frequency: 18.0 ghz; sub assembly part numbers, cage code, and item description: 2062as074-19 (30003/cable assembly, rf), 2051as087-02 (30003/marker, identification), and 2059as454 (30003/fab, cable and harness)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A077a0
