End Application:
18876-11456665
Product Name:
Cable assembly, radio frequency-w6
Special Features:
Vswr measurements shall lbe made with cable terminated with 50 ohm load and repeated from each end; complete details refer to drawing
Special Test Features:
Electrical test conditions
Specification Data:
18876-mil-c-45662/superseded/ government standard and 18876-11462004 manufacturers specification control
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
