Overall Length:

4.063 inches

Overall Height:

0.500 inches

Overall Width:

1.703 inches

End Application:

An/tpx-42 (v)

Special Features:

Mounting method: wire lead; consists of capacitor, integrated circuit, diode, transistor, coil, resistor, insulator, pad, printed wiring board;
component quantity: 68

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
