Overall Length:

10.937 inches

Overall Height:

1.894 inches

Overall Width:

5.000 inches

Mounting Configuration:

Six 0.187 in. Diameter mtg holes, two rows of 3 ea, 0.450 in. Between rows, 5.125 in. C to c within rows

Special Features:

Mounting method: holes for screw; major components: capacitor, diode, insulator power supply, printed wiring board, resistor, transistor; component quantity: 193

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
