Overall Length:

4.250 inches

Overall Height:

0.312 inches

Overall Width:

4.171 inches

Component Type And Quantity:

24 capacitor and 13 coil and 1 crystal and 6 spring and 1 board and 14 resistor

Special Features:

Mounting method: hole mtd; mounting configuration: six 0.158 in. Diameter holes irregularly spaced; fsc application data: amplifier, rf, electronic identification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
