**Overall Length:**

4.250 inches

**Overall Height:**

0.312 inches

**Overall Width:**

4.171 inches

**Component Type And Quantity:**

24 capacitor and 13 coil and 1 crystal and 6 spring and 1 board and 14 resistor

**Special Features:**

Mounting method: hole mtd; mounting configuration: six 0.158 in. Diameter holes irregularly spaced; fsc application data: amplifier, rf, electronic identification

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511I0
