Overall Length:

9.250 inches

Overall Height:

0.625 inches

Overall Width:

6.625 inches

End Application:

An/fpa30 bmews

Basic Shape Style:

Rectangular or square

Frequency Per Channel:

60.0 megahertz operating channel

Impedance Rating Per Channel:

105.000 ohms output channel

External Dc Operating Voltage In Volts:

-16.5 single voltage

Special Features:

T.O. 31p1-2fpa21-24; n/h/a data converter-power supply, 8342082-501

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
