Overall Length:

7.680 inches

Overall Height:

1.000 inches

Overall Width:

4.780 inches

Component Type And Quantity:

13 capacitor and 1 shield and 8 resistor and 2 retainer and 1 semiconductor and 5 transistor

Special Features:

Mounting method: thumbscrews and bracket; mounting configuration: two 0.216 in. Diameter holes on 6.625 in. Centers; fsc application data: underwater sound

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
