**Overall Length:**

4.000 inches

**Overall Height:**

0.358 inches

**Overall Width:**

4.000 inches

**Component Type And Quantity:**

1 ejector and 9 backshell and 10 transistor and 1 printed wiring board and 19 resistor

**Special Features:**

Mounting method: plugs into printed circuit connector; fsc application data: radio navigation, nonairborne

**Fsc Application Data:**

Radio navigation, nonairborne

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A51110
