End Application:

An/flr- (v) , fixed ground, countermeasures, pasive

Document Type:

Nomenclature card

Furnished Items And Quantity:

Cabinet, electrical equipment 1; meter, elapsed time 1; fan, centrifugal 1; indicator, thermal overload; panel, power distribution

Document Title:

Joint electronics type designation system

Amplifier Name:

Radio frequency

Amplifier Quantity:

12

Amplifier Controlling Agency:

U.S army communications

Amplifier Identifying Number:

Am-4213/flr- (v)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T213-n
