Overall Length:

8.000 inches

Overall Height:

0.840 inches

Overall Width:

2.500 inches

Basic Shape Style:

Rectangular or square

Installation Design:

Module

Circuit Construction Type:

Solid state

Impedance Rating Per Channel:

50.000 ohms input channel

Reference Number Differentiating Characteristics:

As differentiated by mfr source controlling no. 02-815198-4 fscm 07397

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
