Overall Length:

4.250 inches

Overall Height:

0.358 inches

Overall Width:

3.718 inches

Component Type And Quantity:

8 capacitor and 6 diode and 1 board and 14 resistor

Special Features:

Mounting method: holes for screws; mounting configuration: six 0.156 in. Diameter mtg holes irregularly spaced; fsc application data: radio set, radio, except navigation and home types, airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
