**Overall Length:**

5.245 inches

**Overall Height:**

1.087 inches

**Overall Width:**

1.780 inches

**Basic Shape Style:**

Rectangular or square

**Frequency Per Channel:**

695.0 megahertz operating channel

**Impedance Rating Per Channel:**

50.000 ohms output channel

**External Dc Operating Voltage In Volts:**

12.0 2nd voltage

**Fsc Application Data:**

Amplifier, radio frequency, except navigation, nonairborne

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A32200
