Overall Length:

5.245 inches

Overall Height:

1.087 inches

Overall Width:

1.780 inches

Basic Shape Style:

Rectangular or square

Frequency Per Channel:

695.0 megahertz operating channel

Impedance Rating Per Channel:

50.000 ohms output channel

External Dc Operating Voltage In Volts:

12.0 2nd voltage

Fsc Application Data:

Amplifier, radio frequency, except navigation, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A32200
