**Operating Temperature Range:**

-20.0/+65.0 degrees celsius

**Identification Designator:**

Am-6538/ftc-80058

**Circuit Construction Type:**

Solid state

**Attenuation In Decibels:**

10.0

**Fsc Application Data:**

Amplifier, audio frequency, telephone and telegraph equipment

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A32200
