Overall Length:

12.250 inches

Overall Height:

1.000 inches

Overall Width:

2.687 inches

Mounting Configuration:

Three no. 8-32 thd mtg holes spaced 4.250 in. By 7.562 in. C to c

Special Features:

Mounting method: bolt; major components: capacitor, resistor, semiconductor device, terminal board; component 24

Fsc Application Data:

Amplifier, video, radar, nonairborne, except fire control and guidedmissile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51110
