Overall Length:

4.500 inches

Overall Height:

1.366 inches

Overall Width:

2.875 inches

Mounting Configuration:

Plug in unit

Special Features:

Mounting method: chassis; major components: capacitor, chassis, connector, diode, modulator, relay, resistor, transformer, transistor;
component quantity: 50

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
