Overall Length:

1.562 inches

Overall Height:

1.250 inches

Overall Width:

1.250 inches

Component Type And Quantity:

1 plate and 21 contact

Special Features:

9mounting method: slides over shaft and retained by snap ring; major components: contacts assembly 1, plate, stator1; mounting configuration: one 0.250 in. Diameter mtg hole located on one end; fsc application data: signal generator, except specially designed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A51110
