Overall Length:

5.000 inches

Overall Height:

2.156 inches

Overall Width:

3.500 inches

End Application:

Type no. Rt-178/arg-27

Component Type And Quantity:

3 capacitor and 1 coil

Special Features:

Zmounting method: panel mounted; usage design: used as radio frequency tuner; mounting configuration: two 1/8 in. Diameter mtg holes on 2 in. Mtg centers; fsc application data: receiver-transmitter, radio, except radio navigation, airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
