Overall Length:

6.200 inches

Overall Height:

1.125 inches

Overall Width:

3.500 inches

Special Features:

Mounting method: unthreaded holes; major components: capacitors, cable assembly, radio frequency, circuit card assembly, coil radio frequency, transistors; mounting configuration: five no. 6-32 thd mtg screws irregularly spaced; fsc application data: amplifier, radio frequency except navigation, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
