Overall Length:

6.200 inches

Overall Height:

1.969 inches

Overall Width:

3.500 inches

Special Features:

Mounting method: unthreaded holes; major components: cable assembly, radio frequency, first radio frequency amplifier assembly, final radio frequency amplifier assembly; mounting configuration: seven no. 6032 thd mtg screws irregularly spaced; fsc application data: amplifier, radio freq. Except navigation, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
