Overall Length:

14.125 inches

Overall Height:

2.750 inches

Overall Width:

4.250 inches

End Application:

Radio sets communication airborne

Component Type And Quantity:

1 generator and 9 screw

Special Features:

Preamplifier 1; mounting method nine 4-40 nc-2 captive screws

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
