**Overall Length:**

14.125 inches

**Overall Height:**

2.750 inches

**Overall Width:**

4.250 inches

**End Application:**

Radio sets communication airborne

**Component Type And Quantity:**

1 generator and 9 screw

**Special Features:**

Preamplifier 1; mounting method nine 4-40 nc-2 captive screws

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A51110
