Overall Length:

6.000 inches

Overall Height:

0.782 inches

Overall Width:

2.870 inches

Basic Shape Style:

Rectangular or square

Inclosure Type:

Open

Installation Design:

Module

Circuit Construction Type:

Solid state

Impedance Rating Per Channel:

100.000 ohms output channel

External Dc Operating Voltage In Volts:

13.0 single voltage

Fsc Application Data:

Receiver control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
