Overall Length:

8.750 inches

Overall Height:

0.750 inches

Overall Width:

5.000 inches

Product Name:

Amplifier subassembly 54 components 8.75in x 5in x 0.75in socket

Special Features:

Mtg method: socket; maj comp: capacitor, lamp incandescent, printed circuit board, resistors, semiconductor device diode, transistors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511I0
