**Overall Length:**

8.750 inches

**Overall Height:**

0.750 inches

**Overall Width:**

5.000 inches

**Product Name:**

Amplifier subassembly 54 components 8.75in x 5in x 0.75in socket

**Special Features:**

Mtg method: socket; maj comp: capacitor, lamp incandescent, printed circuit board, resistors, semiconductor device diode, transistors

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A5110
