Overall Length:

5.500 inches

Overall Height:

3.925 inches

Overall Width:

1.600 inches

Basic Shape Style:

Rectangular or square

Frequency Per Channel:

30.0 hertz operating channel err-100

Attenuation In Decibels:

3.0

Impedance Rating Per Channel:

90.000 ohms input channel err-100

External Dc Operating Voltage In Volts:

28.0 2nd voltage err-100

Fsc Application Data:

Radar equipment, airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A32200
