Overall Length:

0.687 inches

Overall Height:

0.625 inches

Overall Width:

0.625 inches

Operating Temperature Range:

-55.0/+100.0 degrees celsius

Basic Shape Style:

Rectangular or square

Inclosure Type:

Hermetically sealed

Circuit Construction Type:

Solid state

Fsc Application Data:

Altimeter, radarset, search and detection, aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
