Overall Length:

5.395 inches

Overall Height:

0.992 inches

Overall Width:

4.500 inches

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Mechanical

Circuit Construction Type:

Solid state

Connection Type And Location:

Receptacle, audio front

Connection Contact Type And Quantity:

66 receptacle, audio external

External Dc Operating Voltage In Volts:

12.0 single voltage

Fsc Application Data:

Test station, radio set

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A32200
