Overall Length:

8.000 inches

Overall Height:

3.000 inches

Overall Width:

7.625 inches

Mounting Configuration:

Irregularly spaced

Component Type And Quantity:

15 capacitor and 1 plug and 3 tube and 2 panel and 2 rack and 2 reactor and 47 resistor and 4 shield and 1 board

Special Features:

Mtg method: stud; maj comp: vibrator; fsc app data: amplifier, electronic control aircraft gunnery fire control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
