Overall Length:

7.750 inches

Overall Height:

2.500 inches

Overall Width:

7.500 inches

Component Type And Quantity:

1 bracket and 18 capacitor and 1 chassis and 5 clamp and 2 connector and 4 tube and 3 relay and 50 resistor and 6 shield and 1 switch and 2 board and 2 transformer

Special Features:

Mtg method: rack and drawer type tension retained; fsc app data: amplifier, electronic control aircraft gunnery fire control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
