Overall Length:

11.375 inches

Overall Height:

1.500 inches

Overall Width:

2.688 inches

Mounting Configuration:

Three no. (0.138) in. -32 thd tapped holes spaced 3.562 in. Apart on centerline

Component Type And Quantity:

8 tube and 8 socket and 8 shield and 2 cable and 9 capacitor and 6 coil and 1 jack and 1 cover and 1 chassis and 1 gasket and 22 terminal and 2 bracket and 26 screw and 44 washer and 25 nut

Special Features:

Mtg method: bolted to chassis; maj comp: wiring assembly 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
