Frequency Rating:

60.0 hertz single component

Inclosure Type:

Open

Mounting Facility Quantity:

4 single group

Mounting Method:

Slot single group

Saturation Current Rating:

100.0 milliamperes

Dc Resistance Rating In Ohms:

900.800 single component 2nd control

Winding Operating Voltage:

2.00 dc pounds per hour wet single component 1st winding and 4.00 dc pounds per hour wet single component 1st winding

Terminal Type And Quantity:

12 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
