Frequency Rating:
400.0 hertz single component
Inclosure Type:
Fully enclosed
Mounting Facility Quantity:
4 single group
Mounting Method:
Unthreaded hole single group
Winding Operating Voltage:
2.00 dc pounds per hour wet single component 1st winding and 3.00 dc pounds per hour wet single component 1st winding
Terminal Type And Quantity:
10 solder stud
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
A058b0
