Overall Length:

4.500 inches

Overall Height:

1.437 inches

Overall Width:

3.125 inches

End Application:

Type no. Rt-348/arc-54

Component Type And Quantity:

7 capacitor and 1 choke and 2 coil and 1 connector

Special Features:

6mounting method: holes for screws; mounting configuration: six no. 4/0.112 in./-40 unc-2b tapped mtg holes irregularly spaced; usage design: used in amplifier circuit; fsc application data: receiver-transmitter, radio, except navigation, airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
