Reliability Indicator:

Not established

Center To Center Distance Between Mounting Facilities Parallel To Length:

5.077 inches single mounting facili type 2nd center group

Center To Center Distance Between Mounting Facilities Parallel To Width:

2.021 inches single mounting facili type 2nd center group

Mounting Slot Width:

0.218 inches 1st group

Body Length:

6.500 inches

Body Width:

6.000 inches

Body Height:

3.194 inches

Distance Between Mounting Facility Centers:

2.011 inches single mounting facili type 1st center group

Inclosure Type:

Hermetically sealed

Mounting Facility Quantity:

4 2nd group

Mounting Method:

Threaded stud 2nd group

Thread Size:

0.190 inches 2nd group

Thread Series Designator:

Unc 2nd group

Terminal Type And Quantity:

24 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
