Overall Length:

12.500 inches

Overall Height:

3.625 inches

Overall Width:

2.625 inches

Circuit Construction Type:

Electron tube

Impedance Rating Per Channel:

50.000 ohms input channel err-100

External Dc Operating Voltage In Volts:

150.0 single voltage

External Ac Operating Voltage In Volts:

6.3 single voltage

Fsc Application Data:

Receiver r865agr9c, navigation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
