Overall Length:

3.531 inches

Overall Height:

2.625 inches

Overall Width:

3.312 inches

End Application:

Airborne navigation equipment

Component Type And Quantity:

1 wire and 2 sleeve and 1 ring and 1 connector and 7 capacitor and 2 plate and 9 post and 1 lug and 2 spring and 1 socket and 2 coil and 3 choke and 1 lug and 2 stud and 2 tube and 1 shaft and 3 terminal and 1 bracket and 2 resistor and 3 clamp and 1 retainer

Special Features:

Bearings-2; stators-3; mounting method-bolt, five 4-40 thd nuts irregularly spaced

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
