Overall Length:

4.625 inches

Overall Height:

4.188 inches

Overall Width:

4.500 inches

End Application:

Type no. R-547a /gmq-10

Special Features:

Major components: chassis 1, switch 1, socket 2, trigger tube 1, photo cell 1, bleeder assembly 1, heater 1, feed-thru 1, standoff 1, capacitor 1, resistor 2, terminal lug 1; mounting method: bolt; mounting configuration: two mtg holes tapped for no. 10-32 screw on 1-1/2 in. Centers; usage design: used in pulse generating circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51110
