Amplifier Subassembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5996-00-805-3916

Overall Length:
8.031 inches
Overall Height:
0.500 inches
Overall Width:
2.000 inches
End Application:
High cap transmission
Component Type And Quantity:
15 choke and 20 capacitor and 10 diode and 8 resistor
Special Features:
Mtg method: holes for scews; mtg confg: 5 mtg holes 0.140 in. Diameter irregularly spaced; fsc app data: amplifier, subassembly, radio,
except radio navigation, nonairborne
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A511I0
