Overall Length:

2.126 inches

Overall Height:

0.806 inches

Overall Width:

1.688 inches

Basic Shape Style:

Rectangular or square

Frequency Per Channel:

5.625 megahertz operating channel

Signal Voltage Rating Per Channel:

5.000 millivolts any acceptable preset

Overall Gain:

2.4 decibels

Impedance Rating Per Channel:

0.680 kilohms output channel err-100

External Dc Operating Voltage In Volts:

16.0 single voltage

Intermediate Frequency Bandpass:

100.0 kilohertz

Fsc Application Data:

Radio set anvrc12

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
