Overall Length:

2.412 inches

Overall Height:

0.817 inches

Overall Width:

1.475 inches

Basic Shape Style:

Rectangular or square

Frequency Per Channel:

11.500 megahertz operating channel

Signal Voltage Rating Per Channel:

0.500 millivolts any acceptable

Overall Gain:

43.0 decibels

Impedance Rating Per Channel:

0.050 kilohms output channel err-100

External Dc Operating Voltage In Volts:

16.0 single voltage

Intermediate Frequency Bandpass:

8.5 kilohertz

Fsc Application Data:

Radio set anvrc12

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
