Overall Length:

4.563 inches

Overall Height:

2.188 inches

Overall Width:

3.125 inches

End Application:

Type no. Am-1780/vrc

Component Type And Quantity:

4 capacitor and 4 nut and 1 reactor and 15 resistor and 6 screw and 1 transformer and 2 washer

Special Features:

Ymounting method: screw; mounting configuration: 4 screws no. 8-32 thd irregularly spaced; usage design: used in audio freq amplifier circuit; fsc application data: amplifier subassemblies audio, except radio, navigation, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
