**Overall Length:**

4.563 inches

**Overall Height:**

2.188 inches

**Overall Width:**

3.125 inches

**End Application:**

Type no. Am-1780/vrc

**Component Type And Quantity:**

4 capacitor and 4 nut and 1 reactor and 15 resistor and 6 screw and 1 transformer and 2 washer

**Special Features:**

Ymounting method: screw; mounting configuration: 4 screws no. 8-32 thd irregularly spaced; usage design: used in audio freq amplifier circuit; fsc application data: amplifier subassemblies audio, except radio, navigation, nonairborne

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A5110
